Eye to the Sky

Spring & Summer Weather Spotting in the Northland

April is here, and with the warmer temperatures comes the sometimes volatile weather of Northland springs. This is when the National Weather Service usually holds the first free 2-hour **Skywarn Weather Training** of the year to train volunteers in the community to help identify and report, as official Skywarn spotters, severe weather such as large hail, damaging winds and tornadoes. Spotters are **not** storm chasers, who are typically meteorologists traveling toward storms to study and document severe weather in order to advance the science of predictive modeling.

Since the 1970s, SKYWARN® spotters have helped the National Weather Service issue timely and accurate warnings in their region to protect lives and property. As the National Weather Service says, "There can be no finer reward than to know that their efforts have given communities the precious gift of time, the seconds and minutes which can help save lives." Who can be a spotter? Well, anyone who spends time outdoors will benefit from Skywarn training, and because ham radio operators play an important role in public safety, we are strongly encouraged to become Skywarn spotters and attend training every 4 years to refresh.

While the Duluth National Weather Service Skywarn Training sessions have been cancelled this spring due to the Governor's Stay at Home executive order, now is still a great time to review important weather features to be aware of for the safety of our families and community. The National Weather Service is putting together online classes to replace the in-person sessions, but until those are ready, it's good to view the free online weather training at the Comet MetEd website. These don't officially replace the official Skywarn training classes, but are highly recommended by the NWS as a beneficial supplemental instruction that covers the basics of being a spotter. This is an excellent exercise for the entire family to view to learn how to spot potentially dangerous spring and summer storms. Simply visit the web site and register as a user at https://www.meted.ucar.edu/training_course.php?id=23

**April
2020**

Prez Sez ...

Everyone,

Because of the Shelter in Place order by Governor Walz the in-person April Board meeting at Sammy's and the Club meeting at the Coppertop Church scheduled for April 9 are cancelled.

Board members will be meeting by telephone conference call on Tuesday April 7 and should have gotten an email from Mike Lovold NØPDG with details to connect. If you haven't gotten the email let Mike or me know and we will make sure you get the info.

As for the Club meeting, we are working on having the business portion of the meeting on the 94 repeater that Thursday night on April 7th. Mike is working with Matt Holden, ARRL Director for the Dakota Division for him to give us a Webinar presentation that everyone could log onto for our program. This is still being worked out so more info will be provided as time passes.

We are still planning to have our Hamfest May 2, but this could change with all the uncertainty going on. We will need volunteers to help out for this event. Needed are kitchen help, early morning set up, ticket sales and clean up. If you can help out, let Bob Schulz KCØNFB or myself know. If we get to have this event we want to do a good job, so thank you for your help!

73 Gene Ellefsen NØVRM

Guest: Del Minter-KEØCLI

Meeting called to order by President Gene-NØVRM at 6:30 pm

Minutes taken by Mike-NØPDG

Treasurer's Report:

Checking 1,167.19
Savings 1,373.06
Cash Subtotal \$2,540.25

Outstanding Check (Repeater # 1414) -1,100.00

Winter CD 1,714.03
Summer CD 1,700.00
CD Subtotal \$3,414.03

Grand Total \$4,854.28

Move to approve as presented by Mike-NØPDB, seconded by Gary-KD9ABS, motion passed

Committee Reports:

Testing:

Doug-AAØAW reported there was a testing session on February 26, 2020. We had one (1) new upgrade to extra class. Congratulations to Rich-KCØROE. Another Test Session is scheduled for May 2, 2020, at the Ham Fest, 9:30 am Registration with Testing at 10:00 am. There will also be a second Test Session on May 12, 2020, at the House of Refuge, 5:30 pm Registration, Test at 6:00 pm. The Extra Class Test will change to a new Question Pool on July 1, 2020, so study up now to test before the change occurs

Ham Fest:

There is thirty-three (33) tables reserved. We are looking for volunteers to help set up tables and chairs, help in the kitchen during the Fest and cleanup after the Ham Fest ends. Plan is to meet at McDonalds in Superior (WI) at 5:00 am on 21st St and Tower Ave, for coffee, etc., and then head to Fairgrounds for set up. PLEASE VOLUNTEER!

Repeaters:

The air conditioner is not working at the Mahtowa Repeater Site so we are looking for one to replace the one currently on site. The exact size to be determined. Grant-KCØWUP said that he would look and see if he had an extra one to donate

Grandma's Marathon:

Grandma's marathon had their first meeting and things are in progress for another year of the racing with ARAC providing Health and Welfare Communications

Motion to adjourn meeting at 6:58 pm by Gene-NØVRM, seconded by Mike-NØPDG, motion passed

ARAC Club Meeting Minutes

March 12, 2020

Grand Total \$4,854.28

Move to approve by Grant-KC0WUP, seconded by Gary-KD9ABS, motion passed

Continued on Page 5

ARAC Club Meeting Minutes, continued

Committee Reports:

Education:

No new class until fall of 2020. Current class started out with seven (7) and is now running between four (4) and five (5). There will be a Test Session at the end of the class on May 12, 2020, at the House of Refuge, where the class is being held.

Ham Fest:

We have a contract but it is unsigned at this time due to a new corporation, DHL Limited, taking over the property. The new contract has raised a lot of questions and concerns such as do we have both buildings? The Fairgrounds Building plus the 4-H Building, which we use for testing. The Board passed a motion to pay the fees associated with renting the facility for the Ham Fest, which are \$100.00 deposit and \$600.00 rental fee. Other questions are with the pop or soda, contract states we have to see their pop. Our concern is it on a gun or do they have cans? Food, the contact says no cooking on site unless we use a caterer on site. We just warm up precooked foods so we're good. Our \$100.00 deposit must be paid again even though we have had a rolling \$100.00 deposit for years. This is a new company and they require a new deposit. Bob-KC0NFB stated we will have to chase down the old company to get a refund of our old \$100.00 deposit. Gene-N0VRM will work on recovering out deposit. Grant-KC0WUP seconded the Board's motion and the motion passed

Testing:

We will be testing at the Ham Fest, May 2, 2020, and on May 12, 2020, which is the last day of the Community Education Class. On Monday, March 16, 2020, we will have a mini test session, possibly testing only one (1) candidate. If you know of someone who would like to test this Monday at Noon, please contact Doug-AA0AW. This test session will be held at the House of Refuge, 115 W Myrtle St.

Just a reminder – the questions for the Extra exam will be changing July 1, 2020, so if you have been contemplating taking the Extra exam, you may want to schedule it with Doug-AA0AW, prior to July 1st

Parliamentarian:

In reviewing the Bylaws for any negative impact, we are good. Just want to say thank you for being here. Thank you to Grant_KC0WUP for doing an excellent job

Grandma's Marathon:

Scott-N0VYU has the assignment sheet for the various Communication Stations along the Marathon route. Please review the list and if you would like to stay at the same location, please highlight your name in yellow. If you are not on the list and are interested in helping to provide Communications and Welfare for the Marathon, please add your name and contact information on the same page. Ssott-N0VYU will contact you to discuss your participation

\$5.00 door prize was won by Gary-KB9ABS, who donated it to the Coffee Kitty

Motion to adjourn by Mike-N0PDG, seconded by Robin, motion passed at 7:19 pm

Arrowhead Radio Amateur Club **HAM FEST!**

Sat. May 2nd, 2020 9:00am – 1:00pm

US Amateur Radio Bands

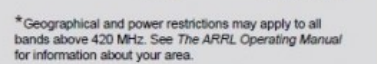

US AMATEUR POWER LIMITS

FCC 97.313 An amateur station must use the minimum transmitter power necessary to carry out the desired communications. (b) No station may transmit with a transmitter power exceeding 1.5 kW PEP.

On March 28, 2017, the Federal Communications Commission adopted rules that will allow Amateur Radio access to 472-479 kHz (630 meters) and to 135.7-137.8 kHz (2,200 meters). However, amateurs cannot use these frequencies until 30 days after the Report and Order is published in the Federal Register and the final procedures for registering stations with the Utilities Telecom Council (UTC) have been approved and announced. At the time this chart was created, the Report and Order had not been published and the UTC online registration site is not yet available. Follow ARRL news for further information. New charts will be published at www.arrl.org/graphical-frequency-allocations when the bands are fully available for use.

Effective Date for 2,200 and 630 Meters to be announced

All licensees except Novices are authorized all modes on the following frequencies:

2300-2310 MHz	10.0-10.5 GHz ‡	122.25-123.0 GHz
2390-2450 MHz	24.0-24.25 GHz	134-141 GHz
3300-3500 MHz	47.0-47.2 GHz	241-250 GHz
5650-5925 MHz	76.0-81.0 GHz	All above 275 GHz

‡ No pulse emissions

KEY

Note: CW operation is permitted throughout all amateur bands.

MCW is authorized above 50.1 MHz, except for 144.0-144.1 and 219-220 MHz.

Test transmissions are authorized above 51 MHz, except for 219-220 MHz

NETS

Have a favorite HF/6m/2m/1.25m/70cm net that you check into or listen in on? Also, please send corrections and we will add it to the list below - Kim KEØNQS at my email KEØNQS.mn@gmail.com.

- **Northland Weather Group Net:** Mondays 2000 on the ARAC repeater (146.940 MHz with a tone of 103.5 and standard offset).
- **Minnesota D-Star Net:** Sundays at 19:30 on Reflector 53A
- **Minnesota Section Net** 1200 and 1730 on 3.860 [Net Manager: NØYR] http://www.mn-section.org/dept_stm.html
- The non-non-net: Evenings 2000 144.200 USB except for Sunday evenings.
- Badger WX Net: 0500-0715 on 3.985. Give 24 hour high/low/current temperature, precipitation and snowfall.
- **PICONET:** 3.925 from 0900-1100 CT Mon-Sat and 1600-1700 CT Mon-Fri. Info at: <http://www.piconet3925.com>
- Michigan Upper Peninsula Net: 1600 (CST) on 3.921 MHz Sun-Sat and 1200 Sun. Info: <http://www.michupnet.com>
- Great Lakes Marine/Maritime Mobile Net: Morning 07:30 - 3.932; 08:15 - 7.261 MHz and evening 18:30 - 3.1730927; 19:15 - 7.268 MHz. Weekend extra net: 10:00 - 7.261/7.268 MHz. All CST, LSB and +/- QRM. See: <http://www.sailblogs.com/member/glimmnet/>
- MIDCARS: 07:30-13:00 - 7.258 MHz. See: <http://www.midcars.net>
- Iowa snowbird net on 14.257MHz, M-W-F at 10:00 am Local Time. This is an open net.
- Spider Web Net (Marco Island FL) on 14.347 every morning at 0730 CST/CDT: <http://www.spiderwebnet.net>
- Maritime Mobile Service Network: Daily at 1100—2100 Central on 14.300. <http://mmsn.org> and <http://www.14300.net>
- RV Radio Network: Every day at 1900 Central on 7.265 MHz. Web site: <http://www.rvradionetwork.com>
- Upper Midwest Ten Meter Net: Every Thursday Evening @ 8 PM – 28.480 MHz USB
- Wisconsin Sideband Net: Daily @ 5:15 PM – 3985 [or 3982.5] KHz LSB
- Upper Midwest Ten Meter Net: Every Thursday Evening @ 8 PM – 28.480 MHz USB
- Hobby Helpers Net - Tuesday @ 8 PM – 28.330 MHz USB (Isanti MN) LSB [Net Manager: WOØA].
- Northstar Trader Net: 3.908 +/- at 0830 CST Sundays
- WARFA: 3.908 +/- Sun/Tue/Thu nights at 2200 CST, <http://warfa.org/>
- Youth Net: 14.320-14330 Sundays 1800-1900 UTC, Net Control: AC8PI
- YACHT: Saturdays 1900 CST on EchoLink #481872, <http://yachthams.webstarts.com>
- Northwestern Ontario ARES Net: Evenings at 20:15 (Central) on +/- 3.750Mhz
- The Iron Range Net: Saturdays at 0800 Central time on or near 3.919 Mhz. Look them up on Facebook!
- FORX Net: Mondays at 1900 Central at 3.941 Mhz +/- QRM. WAØJXT — Grand Forks, North Dakota
- HF CW: Fridays 08:00 CST, 7.112 MHz. Informal slow speed CW Net. W8IRT NCS. Email: w8irt@aol.com
- Minnesota ARES Digital Net: Thursdays at 2000 CST, 3.5835 MHz USB +/- QRM, Mode: Olivia 8/500.
- SARA Digital Net: Sundays at 1900 Local, 3.582.150 MHz USB +/- QRM, Mode: BPSK31/BPSK63
- Spider Web Net (Marco Island FL): 14.347 every morning at 0730 CST/CDT: <http://www.spiderwebnet.net>
- Broadcaster Net: 7.231 or 3.855 M/W/F @ 1500 UTC. 14.255 M-F @ 2130 UTC. <http://www.cbsretirees.com/ham.htm>
- Old Military Radio Net: 7.268 +/- nightly at 0200z. Other times/Frequencies too. See: <http://www.mrca.ar88.net/>
- Rag Chew Crew/Tailgaters/Freewheelers Nets: 3.916 +/- nightly at 1900 CST, <http://www.tailgatersnet.com>
- North South Net: 7.214.6 +/- at 0700 CST, Monday-Saturday

Next ARAC Board Meeting*

Tuesday, April 7, 2020
@ 6:30 p.m.

**via conference call; Board Members will be informed of the call-in number*

Next ARAC Club Meeting

Thursday, April 9, 2020
7 p.m.
on the 94 Repeater

Tune into the
Sunday night ES Net
on April 5th at 9:00 p.m.
for more instructions on
viewing the program
portion of the club meet-
ing via webinar.

*Interested in providing a pro-
gram, or have an idea for one?
Contact Mike NØPDG at
lovoldm@gmail.com*

CLUB REPEATER
WØGKP

146.94 (-)
CTCSS TONE
103.5

KCØNFB Bob, would like to re-
mind all hams to **make sure**
your license is current and up-
to-date on your address. You
can visit the FCC ULS to check
it and make changes at
www.fcc.gov/uls.

**“Stay tuned” for future
information on the
resumption of
Amateur Radio License
Class
and
General & Expert License
Study Group**

**by visiting our club web
site at www.thearac.org
and tuning into the
Sunday night net
at 9:00 p.m.**

Reminder: The **Contest Corral** monthly listing of contests can be found in each issue of **QST**. **ARRL** sponsored contests can be found in Contest Corral, highlighted, or on the ARRL's web site at arrl.org.

U.S. AIR FORCE MILITARY AUXILIARY RADIO SYSTEM

Minnesota State MARS Director
Reginald B. Cass / AFS5MN

Gene Ellefsen
NØVRM

Thank you for your time and interest.

Air Force MARS membership could be for you. We do hope that it is.

If you have the following interests, and capabilities, we are interested in recruiting you to become an Air Force MARS member. Completion of the following on line training is mandatory:

Personally, Identifiable Information (PII) <https://iatraining.disa.mil/eta/piiv2/launchPage.htm>

Cyber Awareness https://iatraining.disa.mil/eta/disa_cac2018/launchPage.htm

If you have completed: Incident Command System (ICS) -100, 200, 700, and 800 training, and have obtained certification for Air Force MARS or are willing to obtain this training, again, Air Force MARS could be for you.

You must be interested in joining a group of individuals that are dedicated to amateur radio, emergency communications, and willingness to learn and used military communications procedures for voice and digital communications.

You must have equipment that will meet the minimum requirements for voice and digital operation. The equipment will be: transmitter, receiver, (transceiver) modified to operate out of amateur radio bands, computer, modem, and antenna's that are designed to operate on military assigned frequencies. (The best antenna's will be a dipole cut to the operational frequency. NVIS antennas work best. You will not need a linear amplifier, however if you have one that will operate on out of amateur radio bands that will be a plus)

You must go through and complete training. You are allowed up to 180 days to do so.

Air Force MARS operation's and procedures are based upon "MARS Operating Instruction", (MOI). The MOI manual uses as its basis for instruction a series of Allied Communications Publications (ACP's), Department of Defense Directives, Department of Defense Instructions, and Department of Defense Manual.

If you already belong to a MARS program and would like to consider Air Force MARS, please contact one of the recruiting team members.

For even more information please open and read the attachment.

Our recruitment team is as follows:

AFA5XK Dave, WB7DRU wb7dru@gmail.com

AFA5ZV Randy, KRØB afa5zv@gmail.com

AFA5JY Reg, KAØRJY reg_cass@msn.com

Eye to the Sky, Continued from Page 1

At the end of the **MetEd Skywarn Spotter course**, learners should be able to:

- Describe the role of the SKYWARN Spotter
 - Identify examples of proper safety while spotting during specific spotting scenarios
 - Identify reportable events and criteria for reporting
 - List the seven required pieces of information to communicate when making a spotter report
 - Demonstrate how to make clear and succinct spotter reports
- Identify from a photo or video important visual features to report

AccuWeather meteorologist Meghan Mussoline wrote an excellent article entitled **Survival Guide: Recognize Which Clouds Mean Danger**. She says:

“During severe weather outbreaks, conditions can change rapidly and the weather can turn volatile quickly. It is crucial to follow severe weather and tornado-related watches and warnings during episodes of severe storms. Keeping a weather radio nearby, with extra batteries handy, is a must. If you are out on the open road, staying tuned to severe weather alerts and being able to read the clouds for severe weather can help save your life.”

Here’s a a breakdown of ominous-looking clouds and whether there is imminent danger associated with them:

Cumulonimbus Clouds

Rapid vertical growth in these cauliflower-looking cumulonimbus clouds shows that there is a mature thunderstorm, likely producing heavy rain. Abundant moisture and instability due to cool air aloft and heating at the surface set the stage for cumulonimbus to develop.

A lifting mechanism, such as a cold front, can help trigger these clouds to form. Heavy rain, frequent lightning, strong winds and hail can be threats associated with cumulonimbus clouds.

Scud Clouds

Scud clouds may appear to be ominous as they hang vertically below a cumulonimbus cloud. Sometimes, scud clouds are mistaken for funnel clouds.

However, these clouds are benign and non-rotating. They often have a ragged appearance that sets them apart from the often smooth funnel clouds.

Continued on page 21

Shelf Clouds

Shelf clouds often form at the leading edge of a gust front or outflow boundary from a thunderstorm or strong winds flowing down and outward from a storm.

The outer part of a shelf cloud is often smoother with a notable rising motion exhibited by a tiered look (hence, the name shelf cloud). Underneath, a turbulent, unsettled appearance is often the case.

A shelf cloud should be seen as a harbinger of strong winds, so take caution.

Wall Clouds

A wall cloud is a cloud that is lowered from a thunderstorm, forming when rapidly rising air causes lower pressure below the storm's main updraft.

"Wall clouds can range from a fraction of a mile up to nearly 5 miles in diameter," according to the National Weather Service.

Wall clouds that rotate are a warning sign of very violent thunderstorms. They can be an indication that a tornado will touch down within minutes or even within an hour.

Funnel Clouds

A funnel cloud is a rotating column of air (visible due to condensation) that does not reach the ground.

If a funnel cloud reaches all the way to the ground, it is then classified as a tornado. When out on the road, funnel clouds should be treated as tornadoes, since they could touch down.

Continued on page 22

Tornadoes

A tornado is a rotating column of air, reaching all the way to the ground. Strong tornadoes are one of the most destructive forces of nature on a small scale, the strongest of which can level entire towns.

A roaring noise, often compared to that of a train, can be heard in many cases when a tornado touches down.

Vehicles are **NOT** a safe place to be if there is a tornado nearby.

Thunderstorm Anvil Clouds

Anvil clouds are the flat top of a thunderstorm, or cumulonimbus cloud.

They can spread up to "hundreds of miles downwind from the thunderstorm itself," according to the National Weather Service.

Lightning can strike from anvil clouds, even far away from a thunderstorm. Lightning described as striking "from out of the blue" is usually from an anvil cloud that has drifted from a thunderstorm.

Mammatus Clouds

Striking mammatus clouds can sometimes be seen below thunderstorm anvil clouds.

The rounded and smooth look of mammatus clouds captivates onlookers.

They are often found underneath anvil clouds of severe thunderstorms; however, they can form underneath clouds associated with non-severe thunderstorms as well.

Continued on page 23

Eye to the Sky, Continued from Page 22

Asperatus Clouds

An abundance of heat in the atmosphere is needed to produce enough energy for the dramatic, rolling formations of asperatus clouds. Another factor is the interaction of very moist air (often on the fringes of thunderstorm complexes) with very dry air.

The darkness of the clouds is likely due to the large amount of water vapor.

Asperatus clouds are not necessarily accompanied by stormy weather. In fact, they have often been observed without the development of thunderstorms.

OK, all of us are starting to feel “cabin fever”, so now is the time to get outside! Sit on your porch or walk around in your yard or on a trail. Look at clouds and identify them as you walk, whether they’re storm clouds or not!

As you walk, go to University Corporation for Atmospheric Research’s **UCAR Center for Science Education** website on your phone at <https://scied.ucar.edu/learning-zone/clouds/cloud-types> for great photos and descriptions of “everyday clouds”.

Take photos of clouds as you walk & send your favorite one to ke0nqs.mn@gmail.com. We’ll select a few to show off in next month’s **Relay**. “See” you then! ★

Enter the

EASTER EGG PHOTO CONTEST

for a chance to WIN \$25!

1. Snap a photo of your single decorated Easter egg & email it along with the artist’s name (& call sign if applicable) to ke0nqs.mn@gmail.com by Friday April 17th.
2. All photos will be numbered as they are received and will be uploaded without names to the ARAC web site in a special April Relay “Extra” Newsletter publication
3. Voting will open at 12 Noon on April 18 and close at 6 pm on April 19.
4. ONE Winner will be announced on Sunday, April 19, 2020 during ES Net at 9 pm. In the event of a tie, the tying entries will be resubmitted to ARAC for a second blind vote as announced.
5. Vote via text at 218-491-4724 and text the number of the entry you want to vote for OR email us at ke0nqs.mn@gmail.com to vote for ONE entry. No early or late voting.
6. One vote per person ONLY; must be an ARAC member to vote.
7. One Easter egg photo entry per person; open to all ages
8. Photo entries must be from ARAC members or their immediate family. Immediate family is defined as your spouse, your children, your grandchildren or your parents.
